Re: Price Increase Effective October 15, 2006

Dear Valued Customer:

We have continued to sustain significant increases in all raw materials across all of our product categories – pulp, polymer based components, cartons, corrugation, chemicals, and metal as well as significant increases in transportation, logistics, and other energy related costs.

Effective with all orders placed on or after October 15, 2006, prices will increase 6% on all product categories.

We will continue to honor any contract pricing that may be in place through their expiration dates, after which that pricing will also be increased accordingly. For ease of reference, attached is your new special pricing program. For all other items, please refer to our price sheet which is posted on our web-site at www.hospeco.com.

We value your business and remain committed to investing in our company so that we may continue to provide the quality products, programs, and service that both you and your customers expect from HOSPECO. If you have any questions regarding this notification please call your local HOSPECO representative.

We appreciate your understanding and thank you for your continued support.

Sincerely,

Scott Brown
 General Manger
